

LEGEND

- Bureau of Land Management monument recovered this survey.
- Stainless steel post set this survey.
- Iron rebar set this survey.

Mean
Magnetic
Declination
25 1/2° E.

Set a stainless steel post, 26 ins. long, 2 1/2 ins. diam., 27 ins. in the ground, with brass cap mkd. as shown, from which
A spruce, 5 ins. diam., bears S. 61 1/4° E., 6.6 ft. dist., mkd. X BT.
A spruce, 5 ins. diam., bears S. 75 1/2° W., 9.2 ft. dist., mkd. X BT.
Deposit a magnet in a white plastic case at the base of the stainless steel post.

Set a stainless steel post, 26 ins. long, 2 1/2 ins. diam., 28 ins. in the ground, with brass cap mkd. as shown, from which
A spruce, 6 ins. diam., bears S. 41° E., 5.3 ft. dist., mkd. X BT.
A spruce, 8 ins. diam., bears S. 64° W., 28.4 ft. dist., mkd. X BT.
Deposit a magnet in a white plastic case at the base of the stainless steel post.

Set a rebar, 30 ins. long, 5/8 ins. diam., 28 ins. in the ground, with alum. cap mkd. as shown
Northeast end of a chainlink fence, bears N. 7 1/2° E., 21.8 ft. dist.
Northwest end of a chainlink fence, bears S. 84 1/4° W., 134.3 ft. dist.
Deposit a magnet in a white plastic case, 10 ins. deep, alongside the rebar.

Set a stainless steel post, 26 ins. long, 2 1/2 ins. diam., 28 ins. in the ground, with brass cap mkd. as shown, from which
A spruce, 4 ins. diam., bears N. 12 1/2° W., 31.0 ft. dist., mkd. X BT.
Deposit a magnet in a white plastic case at the base of the stainless steel post.

Set a rebar, 30 ins. long, 5/8 ins. diam., 28 ins. in the ground, with alum. cap mkd. as shown
Deposit a magnet in a white plastic case, 10 ins. deep, alongside the rebar.

Set a rebar, 30 ins. long, 5/8 ins. diam., 29 ins. in the ground, with alum. cap mkd. as shown
Deposit a magnet in a white plastic case, 22 ins. deep, alongside the rebar.

Found an iron post, 2 1/2 ins. diam., firmly set, projecting 10 ins. above the ground, with brass cap mkd. as shown
The dim remains of the original pits 3 ft. SE and NW of post.

Set a rebar, 30 ins. long, 5/8 ins. diam., 29 ins. in the ground, with alum. cap mkd. as shown
Deposit a magnet in a white plastic case, 6 ins. deep, alongside the rebar.

Found an iron post, 2 1/2 ins. diam., firmly set, projecting 10 ins. above the ground, markings on the brass cap were not recorded.

No evidence of pits was found.

ALASKA NATIVE CLAIMS SETTLEMENT ACT
(ANCSA) SECTION 14 (C) LOTS 1 AND 2
P.L. 92-203 (85 STAT. 688, 702, 703)

DINYEE CORPORATION
AT
STEVENS VILLAGE, ALASKA

AND
THE DEPENDENT RESURVEY OF A PORTION
OF TRACT B, U.S. SURVEY No. 4393

This plat contains the entire survey record.

U.S. Survey No. 4393 was surveyed by Fred A. Anderson, Surveying Technician, Associate in 1967.

Township 14 North, Range 7 West, Fairbanks Meridian, Alaska was surveyed by Tommy A. Noble, Cadastral Surveyor, in 1980 and Charles E. Akin, Registered Alaska Land Surveyor, under contract in 1997.

This survey was executed by Peter R. Nanok, Cadastral Surveyor, June 22 through June 24, 2002, in accordance with the specifications set forth in the Manual of Surveying Instructions, 1973, Special Instructions dated October 22, 2001, approved October 30, 2001, the ANCSA 14(c) map of boundaries, approved September 2, 1998 and Assignment Instructions dated May 9, 2002.

Field assistant:

Bill J. Lewellen, Student trainee (LS)

Area: 11.78 Acres.

The azimuth was obtained from the retracement of a portion of line 6-7, Tract B, U.S. Survey No. 4393, and refers to the true meridian.

Preliminary to the resurvey, the original lines of U.S. Survey No. 4393 were retraced, and a thorough search was made for the evidence of the original corners. The retracement data was thoroughly verified and only the true line field data are given herein.

The geographic position of corner No. 4, Lot 2, on line 6-7, Tract B, U.S. Survey No. 4393 as determined from the record of U.S. Survey No. 4393, and Township 14 North, Range 7 West, Fairbanks Meridian, Alaska, is:

Latitude: 66° 00' 33.18" North

NAD 27

Longitude: 149° 04' 20.77" West

The mean magnetic declination was obtained from the record plat of Township 14 North, Range 7 West, Fairbanks Meridian, Alaska.

This survey is situated at the outskirts of Stevens Village, in Township 14 North, Range 7 West, Fairbanks Meridian, Alaska.

The land is generally level, with scattered spruce, alder and willow.

The soil is loam.

Access to the survey was by all terrain vehicle.

UNITED STATES DEPARTMENT OF THE INTERIOR
BUREAU OF LAND MANAGEMENT
Anchorage, Alaska

The survey represented by this plat, having been properly executed and examined is hereby accepted for having fulfilled the requirements of Section 14(c) of the Alaska Native Claims Settlement Act.

For the Director

David P. Bryant 11 July 2003
Date

Deputy State Director for Cadastral Survey, Alaska

I, hereby certify that Lots 1 and 2 represented on this plat of survey are on lands Interim Conveyed to Dinyee Corporation, Interim Conveyances No. 546 issued by the United States of America; said Lots also fulfill all entitlements under the provisions of ANCSA 14(c) Map of Boundaries approved September 2, 1998.

10-19-03
Date

Marjorie Mayo President
General Manager, Dinyee Corporation

I, Peter R. Nanok, Cadastral Surveyor, HEREBY CERTIFY upon honor that in pursuance of Special Instructions dated October 22, 2001, I have executed the survey depicted on this plat in strict conformity with said Special Instructions, the Manual of Surveying Instructions, 1973, and in the specific manner described on this plat.
